# Bay Window Greenhouse

*“Can Orchids Be Successfully  
Grown In the Home?” ~ ~*

---

**P**ROBABLY you have often expressed the desire to grow plants successfully indoors—you love plants and flowers—and know there is nothing that adds so much to the home or gives the same enjoyment and satisfaction.

We receive many inquiries relative to small greenhouses. Many of them are from persons having a very limited ground space. Others wish to start in an inexpensive way before going into the more costly proposition that greenhouses necessitate.

Our problem was to design a greenhouse which would meet the requirements of size, location and price. We believe we answer this need with our “Bay Window Greenhouse” which is, as shown, erected against a window of a Country or City dwelling, Apartment, School or Office. A decided benefit of this Greenhouse to the City dweller is that it keeps plants in his home for a maximum time. Otherwise dust, gases, lack of proper moisture, insufficient sunlight and uneven range of temperatures make it almost an impossibility to have plants in good condition for any length of time. With a “Bay Window Greenhouse” plants and flowers can be kept in ideal growing condition and used for the household decorative scheme as desired.

While designed primarily for Orchids, this greenhouse will grow any kind of plant that can be raised in a regular-sized hot-house. It will be ideal for forcing seasonal crops. Seeds and bulbs of many kinds can be started and grown on into plants. Lillies, Narcissus, Tulips, etc., can be raised for Easter decorative purposes or for any other season or special occasion. Foliage plants and Ferns can be grown beautifully and used in the household scheme of decoration when desired. A Vine or so

may be trellised around the inside to add to the charm and general effect.

The "Bay Window Greenhouse" is designed to blend architecturally with almost any type of house and can be installed without the slightest damage. It may be obtained in any special size outside our standard sizes. The four important factors to successful plant growth, namely—Air, Moisture, Light and Heat have been carefully incorporated in its construction.

Our interest in this project is primarily to stimulate and increase the knowledge of the ever-widening circle of Orchid enthusiasts and plant-lovers in general.

We sincerely hope that this little greenhouse is going to be a large factor in developing many new Orchid and plant amateurs.

Complete details and description can be obtained by writing us for our "Bay Window Greenhouse" circular.

Respectfully,

LAGER & HURRELL.

---

~ ORCHIDS ~

**W**E hereby take pleasure in presenting to you our silent salesman of Orchids and we trust you will find in this list some varieties for your conservatory. In ordering, please give the number of the plant in the left margin as well as this Special List No. 96.

Information and prices of any plants not listed herein will be furnished you on request, as lack of space makes it impossible to list more stock.

See "Materials" for Fresh Spring Supplies of Peat and Moss now on hand.

Trusting to be favored with your valued order, we are,

Very truly yours,

**LAGER & HURRELL,**

SPECIAL LIST NO. 95.

## SPECIAL ORCHID PLANT OFFERINGS

### \*CATTLEYAS:

1—Bowringiana. 4-5 bulbs	\$ 7.50
2—Bowringiana. 5-6 bulbs	10.00
3—Bowringiana. Larger Plants	15.00
4—Crispo-hardyana. 4-5 bulbs	7.50
5—Crispo-hardyana. Larger plants	10.00
6—Enid. 4-5 bulbs	15.00
7—Fabia. 4-5 bulbs	15.00
8—Gaskelliana. 4-5 bulbs	5.00
9—Gigas. 4-5 bulbs	10.00
10—Hardyana. 4-5 bulbs	10.00
11—Hardyana Alba. 4-5 bulbs	15.00
12—Harold. 4-5 bulbs	15.00
13—Kitty Wren. 4-5 bulbs	15.00
14—Lobata. 4- bulbs	10.00
15—Mossiae. 4-5 bulbs	7.50
16—Nella. 4-5 bulbs	15.00
17—Percivaliana. 5-6 bulbs	7.50
18—Suavior × Gigas. 4-5 bulbs	7.50

LAGER & HURRELL.

## SPECIAL AMATEUR COLLECTION

In order to stimulate Orchid interest in the amateur plant lover, we have made up the following collection for your approval.

We list twelve (12) plants of the most popular Orchid Genera in varieties that will grow well together as a small collection. They are sufficiently varied to give the amateur a great deal of information regarding their habits, growth and treatment, not to mention the satisfaction derived from the ownership of this splendid little group of plants.

Cultural directions will be sent for this group with your order.

Laeliocattleya: (Selection of one)	Berthe Fournier; Velma Woolworth or Crispo-hardyana.
Cattleya: (Selection of one)	Lobata; Gaskelliana; Trianae or Gigas
Laelia: (Selection of one)	Anceps, white or pink
Oncidium: (Selection of one)	Splendidum or Sphacelatum
Cypripedium: (Selection of one)	Leeanum or Insigne
Vanda: (Selection of one)	Agnes Joachim or Teres
Selenipedium: (Selection of one)	Sedeni-candidulum; Conchiferum or Urgandii
Coelogyne: (Selection of one)	Dayana; Tomentosa or Flaccida
Calanthe: (Selection of one)	Veitchii; Bryan or McWilliamsii
Dendrobium	The lovely and free-flowering Nobile
Angraecum Eichlerianum	Very fragrant, from Madagascar
Brassia Verrucosa	The Spider Orchid

We offer the above collection, in a limited number only, for \$50.00.

\*Listings of other varieties or quotations on plants not here listed will be furnished on request. Smaller plants in most cases at correspondingly lower prices.

In ordering please specify List No. 96.

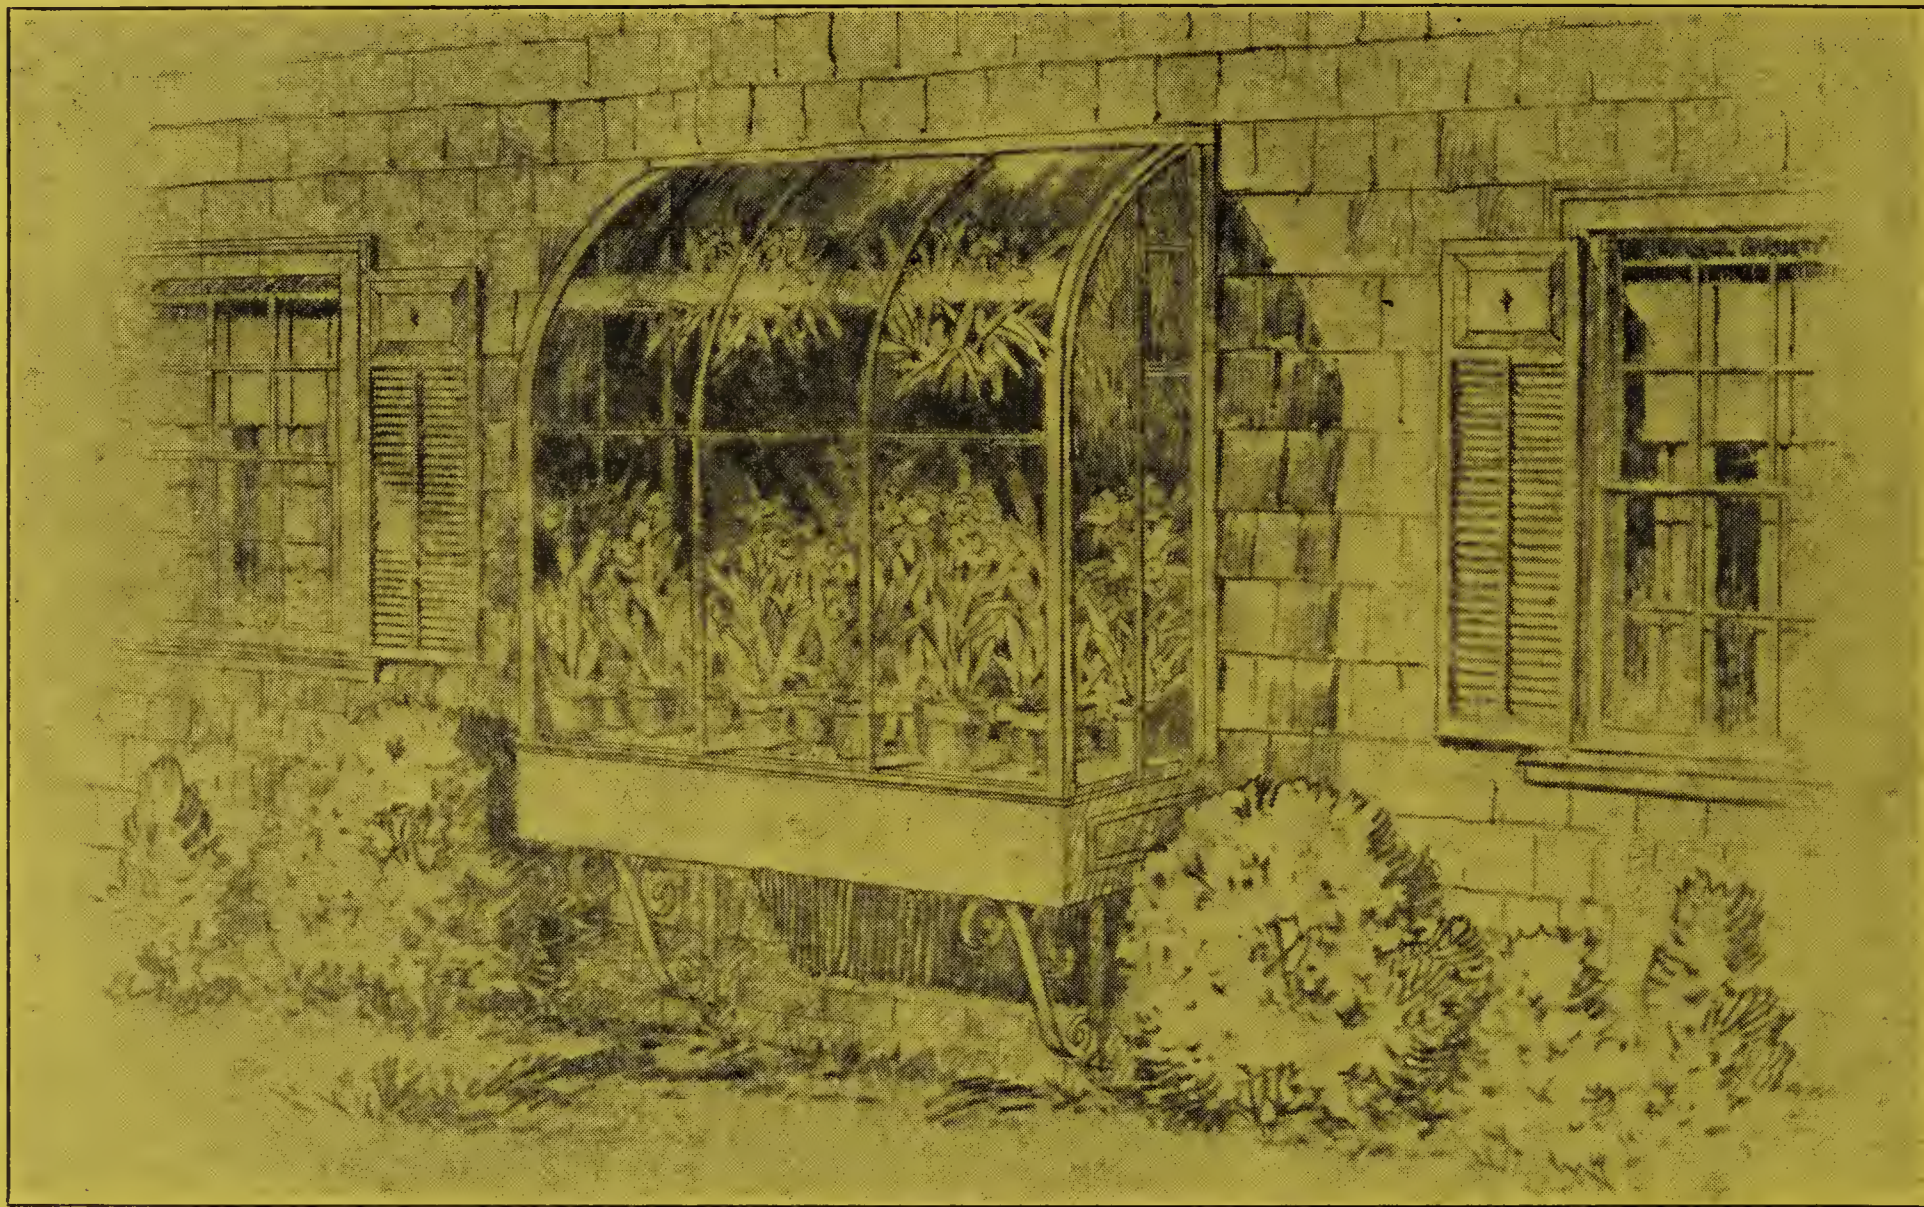

Respectfully,

List No. 96
